Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2017 - December 31, 2017

Filing Confirmation Number: 0008074860

Filing Deadline: January 16, 2018

FRN: 0011458999

Filing Date: 01/24/2018 05:05 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Teleguam Holdings LLC
Brand Names: GTA
PO Box:
Street Address: 624 North Marine Corps Dr
City: Tamuning
State: GU
Zip Code: 96913

Contact Name: Lucia R Perez
Contact Phone: (671) 644-1020
Contact Fax: (671) 644-0010
Contact Email: lperez@gta.net

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice

communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

Yes

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Website address: <https://www.gta.net>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: GTA ensures that all new and existing employees are trained on HAC requirements. All handsets are clearly identified as either HAC or NON HAC compliant via merchandise cards located next to each unit, advertisements in local newspaper and on website. Return policies are in place for consumers seeking to obtain compliant units. Regulatory office maintains local Dept of Integrated Services for individuals with functional needs relationship to ensure all potential issues are addressed and to keep local office up to date on technology

Methodology for Functionality Levels

Is determined on technical capabilities of each unit. Units labeled as advanced are considered smart/data phones and phone labeled standard/basic are primary voice capable units.

Report Remarks

Information provided in this report has been researched and verified using FCC provided handset information and information provided by the manufacturers to the best of compilers knowledge

You have reported the following handset model summary information.

Total number of handsets offered: 58

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	45	78%			13	22%	58
WCDMA	45	78%			13	22%	58
